BAMBOO RINGSPUN SIRO YARNS FOR KNITTED FABRICS

www.legs.com.pl

for every happy smile

Dear customers,

We would like to remind you that our company has in its offer - bamboo ringspun siro yarns raw white waxed for knitting.

Additionally we are happy to inform you that we have decided to extend the range of our products with bamboo ringspun siro yarns „mouline”.

In our warehouse we have always available following counts of bamboo ringspun siro yarns raw white waxed for knitting.

- 30 Ne = 50 Nm = 20 tex
- 24 Ne = 40 Nm = 25 tex
- 20 Ne = 34 Nm = 30 tex

Bamboo fibres are produced out of chinese bamboo tree pulp, so these fibres are artificial and very similar with properties to viscose fibres.

The main advantage of bamboo fibres distinguishing them from viscose is strong antibacterial effect.

Additionally bamboo yarns has a nice touch – colder and less “creaky” then yarns made from viscose fibres.

To improve the quality and durability of our bamboo yarns we have decided to apply here the SIRO technology.

SIRO yarns are produced as double yarns (from two rovings). This technology decreases amount of thick & thin places on the yarn and makes it free of neps. The fabrics are of higher density because the yarn is really double one.

Additionally SIRO yarns increase the yarn tenacity with approximately 1 cN / tex, and this of course has a very positive influence on the quality of the fabrics.

Naturally we are able to dye all these bamboo raw white yarns in our dyeohouse – dying possible in three bath sizes : 110 kgs / 220 kgs / 430 kgs. Apart from bamboo raw white and solid dyed yarns, we also have it available – “mouline” black & white yarns

These yarns are TFO double yarns with the final count of 24 Ne x 1 where two yarns in different colors are twisted together.

Please find attached 5 samples of circular knitted bamboo fabrics, we hope they will be an inspiration for creating the new collection for following seasons.

If you have any technical questions or would like to send us a price query, please do not hesitate to contact our headquarters in Poland or our sales representative in charge of your area.

We would like to wish you success in your business and we would be happy if we could be a part of it.

Warm regards,
The LEGS Team
