PES FDY microfibers raw white

for your
happy times!

Dear customers,

We are pleased to inform you that our company decided to extend the existing product range of PES FDY flat yarns raw with the yarns with large amount of filaments (microfibers) both available in raw white semi-dull and raw white trilobal bright. Untill now we could just provide our customers with standard PES FDY flat yarns (standard low number of filaments) ei.:

- 50 den / f 24 rw sd & rw tr br
- 68 den / f 24 rw sd
- 75 den / f 36 rw sd & rw tr br
- 100 den / f 36 rw sd & rw tr br
- 150 den / f 48 rw sd & rw tr br
- 300 den / f 96 rw sd & rw tr br

Currently we are enlarging this offer with following microfibers PES FDY flat Yarns :

- 50 den / f 72 rw sd
- 75 den / f 72 rw sd & rw tr br
- 100 den / f 144 rw sd & rw tr br
- 150 den / f 144 rw sd & rw tr br
- 300 den / f 288 rw sd & rw tr br

Rw = raw white

Sd = semi dull

Tr Br = trilobal bright

The main advantage of PES FDY yarns with large number of filaments is high softness, high density and a nice, cold & silky touch (imitation of natural silk).

Additionally large number of filaments results in high hygroscopicity and high comfort of wearing especially at sweat, rain etc.

The production process of circular knitting / weaving out of these yarns is the same as in case of standard PES FDY flat yarns.

The knitting / weaving process, time and temperature of dyeing and heatset stabilization will not be changed from standard PES FDY yarns.

These yarns are produced in Asia at modern factories. The quality of the yarns is very high and all the yarns are sold with 100% dyeing guarantee.

Please find attached 2 samples of circular knitted fabrics, we hope they will be an inspiration for creating the new collection for following seasons.

If you have any technical questions or would like to send us a price query, please do not hesitate to contact our headquarters in Poland or our sales representative in charge of your area.

We would like to wish you success in your business and we would be happy if we could be a part of it.

Warm regards,
The LEGS Team
