**COTTON COMBED AND VISCOSE RINGSPUN YARN
WITH PES FIBER GLITTERING BLUE**

Dear Customers,

We are pleased to inform you that we have in our offer:

cotton combed and viscose ringspun yarn with synthetic glittering fiber
for production of high quality knitted and woven fabrics.

Right now, for prompt sales, we have following counts available:

30 Ne x 1 = 50 Nm x 1 = 20 tex x 1 combed cotton raw white 99% / PES fiber glittering blue 1%

30 Ne x 1 = 50 Nm x 1 = 20 tex x 1 viscose ringspun raw white 99% / PES fiber glittering blue 1%

30 Ne x 1 = 50 Nm x 1 = 20 tex x 1 viscose ringspun 99% (80% black melange) / PES fiber glittering blue 1%

These yarns are produced in Asia.

Polyester glittering blue fiber in the quantity of 1% is added to the yarn at spinning process.

The fiber is produced in the United States, it has a very high quality concerning resistance to high temperatures and all the processes of finishing of knitted and woven fabrics.

The glittering fiber is spun permanently into the structure of the yarn, it doesn't leach out during the finishing of woven or knitted fabrics nor during the washing or wearing clothes made from these knitted or woven fabrics.

We are able to import for you glittering yarn in the following colours:

- golden
- silver
- coppery
- yellow
- red
- green
- black

Obviously, we are able to produce any count of this yarn between 12 Ne – 40 Ne and any composition using the following fibers (not only 100%, but also a blend):

- cotton
- polyester
- viscose
- acrylic
- tencel
- modal

Enclosed you will find samples of circular knitted fabrics. We hope that they will become an inspiration for you to create unique knitwear collections.

If you have any technical questions or doubts concerning the yarns, please do not hesitate to contact our sales representative in charge of your area.

Your success is our success. We would be
happy to cooperate with you.

Warm regards,
The LEGS Team
