*VISCOSE RINGSPUN DOPE DYED BLACK – A NEW APPROACH
TO COST EFFECTIVE SOCKS KNITTING*

Dear customers,

We are pleased to inform you that our company decided to extend the existing range of viscose ringspun yarns with black dope dyed and the other colours in fiber dyed yarns. The touch and physical properties of viscose yarns are very similar to bamboo yarns. They have as well some similar features of cotton yarns.

Viscose is an artificial fiber obtained by chemical treatment out of canadian / scandinavian pine cellulose.

Bamboo is as well an artificial fibre but obtained by chemical treatment of cellulose from chinese bamboo tree.

Artificial fibres like viscose and bamboo in contrast to cotton can be dope dyed (in liquid cellulose) and due to this the cost of dyeing the fibres is very low. Unfortunately the minimum order quantity for those kind of dope dyed yarns are always huge and till now this fact has made the distribution of them impossible.

Black colour is the most popular shade in socks knitting.

Because we sell very big quantities of black socks yarns, we were able to invest in the development of this new product line – dope dyed black viscose yarns

We are happy to inform you then that we have started sales from our warehouse of Viscose ringspun black dope dyed in following counts:

- 30 Ne x 1
- 24 Ne x 1
- 20 Ne x 1

The price for above yarns is very competitive, comparing with bamboo and cotton black yarns dyed in our dyehouse in a traditional way.

Because of that, we hope that our new yarn will be inspiration for new products creation in your socks product range. The main idea is to make this new line of socks as competitive as possible, while keeping all the functional advantages of the yarn ei.: the softness of the socks, high hygroscopicity and friction resistance. Thanks to the viscose yarn is dope dyed, socks will have very high sweat, washing and functional resistance and additionally very high colour fastness

If you have any technical questions or would like to send us a price query, please do not hesitate to contact our headquarters in Poland or our sales representative in charge of your area.

We would like to wish you success in your business and we would be happy if we could be a part of it.

Warm regards,
The LEGS Team
